HENAN CHILDREN CENTER (EST. 2008)

Many of CAF's accomplishments included the start of the Henan HIV Children Project in the winter of 2008. This project has helped hundreds of HIV affected children and their families devastated by the ravages of HIV and AIDS in Henan province, caused by non-regulated and unhygienic commercial blood donation practices during the 1990's.

China AIDs Fund's

Sunrise Library Program

Since the founding of the children centers in Shangcai and Shenqiu in Henan, CAF in year 2010 has renovated and expanded two existing libraries located therein. This expansion created a larger space with more furniture and books to benefit the children's needs.

In 2013, the China AIDs Fund with the collaboration of the Shanghai Sunrise Library established a new library in Zhuhe, Sichuan. Important AIDS prevention literature and health related educational books were made readily available to all.

In addition, this new library also housed monthly subscribed children's magazines, fiction and non-fiction books. Each library contains over 4,000 books and collectively can host 400 students. China AIDs Fund was actively engaged in the support of seven libraries located in various locations in China.
