Dear Friends,

I extend my sincere congratulations to the China AIDS Fund on the occasion of its bi-annual gala.

Since its founding in 2003, China AIDS Fund has played a vital role in empowering Asian-American youth through education, mentorship, and community engagement. These programs not only provide critical resources, but also inspire confidence, ambition, and a sense of purpose among participants.

I also want to extend my congratulations to this year's exceptional honorees: Dr. Vincent Wang, Dr. Robert Crupi, and Dr. Jackson Kuan for their outstanding service and dedication to our communities

Dear Friends,

It is my great pleasure to welcome all to the 2026 Bi-Annual Gala Fundraiser. Since its founding in 2003, the China AIDS Fund has been uplifting Asian American youth and strengthening our communities through opportunity, education, and cultural pride.

Through academic scholarships, the China AIDS Fund has helped countless young people pursue higher education and achieve their dreams, opening doors that might otherwise have remained closed. These investments not only change individual lives, but also help build a stronger, more vibrant future for our entire community.

I am especially impressed by the growth and evolution of the Summer Careers Exploration Program. What began as a healthcare-focused initiative has expanded into a dynamic, multi-sector program, providing internship opportunities in medicine, finance, law, and public service. By exposing students to a wide range of professional pathways and equipping them with real-world experience, the program cultivates the next generation of leaders who will shape our city and beyond.

On behalf of the New York City Council, I thank you for your dedication and your impact. Please accept my heartfelt congratulations on another successful gala, and my best wishes for many more years of continued growth and success.

Sincerely,

Sandra Ung

HENAN CHILDREN CENTER (EST. 2008)

Many of CAF's accomplishments included the start of the Henan HIV Children Project in the winter of 2008. This project has helped hundreds of HIV affected children and their families devastated by the ravages of HIV and AIDS in Henan province, caused by non-regulated and unhygienic commercial blood donation practices during the 1990's.

HENAN CHILDREN CENTER (EST. 2008)

We have successfully opened two China AIDS Fund Henan Children Centers in 2008/2009 and summer of 2010, both equipped with a dedicated staff, a library, four computer stations with broadband access, indoor activity room and outdoor activity areas providing a warm and interactive environment promoting socialization and a sense of community with monthly activities and programs.

HENAN CHILDREN CENTER (EST. 2008)

Secondary School subsidies and College scholarship have allowed these children opportunities to further their education beyond junior high school and many into college. The Nutrition Support Program provided a monitoring of these children's body weight to ensure necessary nutritional supplements were provided.

SUNRISE LIBRARY PROGRAM (EST. 2013)

China AIDs Fund's

Sunrise Library Program

Since the founding of the children centers in Shangcai and Shenqiu in Henan, CAF in year 2010 has renovated and expanded two existing libraries located therein. This expansion created a larger space with more furniture and books to benefit the children's needs.

In 2013, the China AIDs Fund with the collaboration of the Shanghai Sunrise Library established a new library in Zhuhe, Sichuan. Important AIDS prevention literature and health related educational books were made readily available to all.

SUNRISE LIBRARY PROGRAM (EST. 2013)

China AIDs Fund's

Sunrise Library Program

In addition, this new library also housed monthly subscribed children's magazines, fiction and non-fiction books. In 2014, the China AIDs Fund financed our additional libraries located in Yonghe, Wongguqiao, Shenzhao and Sanpo in China. Each library contains over 4,000 books and collectively can host 400 students. China AIDs Fund was actively engaged in the support of seven libraries located in various locations in China.

LIANG SHANG PROJECT (EST. 2010)

Liangshan Prefecture, the largest Yi ethnic settlement in China, faces severe HIV/AIDS challenges with a high prevalence rate, affecting over 29,987 individuals by 2015. Our efforts have supported HIV/AIDS affected children and orphans in this region, known for its poverty and drug trafficking issues.

LIANG SHANG PROJECT (EST. 2010)

The impact of HIV/AIDS has led to dire consequences such as disability, increase in the number of orphans, and lack of basic necessities for many children, resulting in a vulnerable population at risk of dropping out of school and facing neglect.
